## PROFESSIONAL EXPERIENCE

### JustGo Health, Frontend Developer • *Ghana (Remote)*                     *07/2021 - 08/2023*

o Spearheaded a team of three Front-End Developers to build the UI of a mental health screening tool using React. The project was successful and directly contributed to attracting the startup's first seed capital.

o Significantly enhanced UI consistency and simplified design implementation through the strategic use of React's modularization capabilities, leading to a seamless user experience.

o Solved complex problems by rapidly mastering the required technologies needed to craft the solution that perfectly aligned with the company's needs.

### World Simplified UG, Frontend Developer Intern • *Germany (Remote)*                     *01/2023 – 05/2023*

o Enhanced application stability by resolving bugs in a legacy React Class Components application.

o Significantly reduced development time and enhanced UI consistency by crafting reusable React components that allowed the team to build UI with ease.

o Translated both simple and complex UI designs from FIGMA into highly functional code.

### Very Ghanaian, Web Developer • *Ghana (Contract)*                     *02/2023 – 06/2023*

o Spearheaded the development of a web app for the brand using Squarespace as the CMS platform and custom HTML, CSS, and JavaScript to achieve a highly customized and brand-aligned experience.

## PORTFOLIO PROJECTS

- **Elegante Shop** (E-commerce App)
  Live Site  •  GitHub

  E-commerce app with lightning-fast performance, secure authentication and a sleek design ensuring a hassle-free journey for users.
  Next.js, MongoDB, Next-Auth, JS-Cookie etc.
